	14 September (Fri)							
Room	**Grand Ballroom**	**101**	**103**	**105**	**106**	**107**	**204**	**205**
08:00								
		T4.5 Tracing flow systems using chemical and isotopic indicators	T5.5 Drinking water protection and groundwater remediation		T2.4 Innovations in flow and transport modeling		T6.2 Biogeochemistry and ecosystems of the riparian and hyporheic zone	T9.2 Geological storage of CO_2 (Co-organized with K-COSEM Research Center, Korea)
09:00				T1.1 Socioeconomic aspects of groundwater resources management		T3.1 Groundwater quantity and quality issues arising from environmental changes		
10:00	Keynote Lecture 11							
	Coffee Break							
11:00		T4.4 Managed aquifer recharge	T7.2 Characterization and utilization of deep fractured rock and karst aquifer	T1.1 Socioeconomic aspects of groundwater resources management	T2.4 Innovations in flow and transport modeling	T3.5 Disasters and groundwater	T6.2 Biogeochemistry and ecosystems of the riparian and hyporheic zone	T9.2 Geological storage of CO_2 (Co-organized with K-COSEM Research Center, Korea)
12:00	ECHN Keynote							
13:00	Closing Ceremony & ECHN Best Oral and Poster Presentation Awards							
14:00	Farewell Party
